

The next generation of finance translation

Higher quality translation delivered quickly and securely from Lilt, the leading AI solution for enterprise translation

Top Ranked Translation Provider

Secure Translation at Scale

Ensuring linguistic accuracy and compliance adherence, while keeping up with increasing volumes of content for translation, is a challenge in highly regulated industries.

Lilt's Contextual AI Engine enables modern financial institutions to meet this challenge, increasing translation velocity and ensuring an industry-leading cost advantage. Specialized linguists guarantee quality, while providing feedback to fine tune Lilt's large language models. Leaders can rest assured that their data is secure with an AI translation strategy created in compliance with the highest security standards.

Lilt's Contextual AI Engine

is trained on 5x more parameters than previous models, resulting in **faster, more accurate translations**

Working with Lilt

At Lilt, we understand the importance of precision in a landscape of constantly-changing laws and regulations—so much so that “Meticulousness” is one of our core values. Our financial services and banking customers operate around the clock, and so do we, with 24/7 customer service and support to ensure that you accomplish your business goals.

Data Security

Lilt is compliant in keeping your data and your customers' data secure.

High Accuracy

Our Human Quality Control guarantees quality and gives feedback to the AI.

Brand Consistency

Our experienced translators are trained on your terminology and preferences.

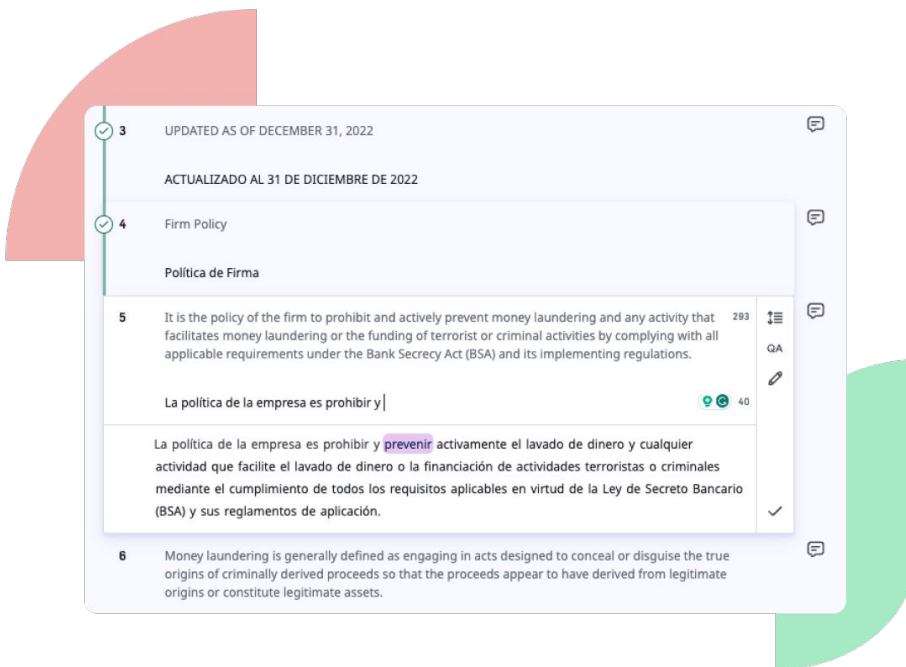

Speed

Lilt's Contextual AI Engine allows linguists to work faster, allowing translation at scale.

Translation Applications

85% of consumers believe that access to information in their native language is a critical factor in financial services decisions, making access to content in native languages an important part of daily business interactions. Below are a few of the different content types we support:

Investment Banking

- Legal documents
- Risk assessment
- Financial statements
- Performance reports

Commercial

- Online banking platforms
- Payment solutions
- Customer support
